

# Lucas Watson's Linear Equation Project

The reason I did this design was that when I was at home with my parents for the first nine weeks my mom thought it would be a good idea to make stain glass on our sidewalk with ducktape it took so long but it was worth it.

$$y = -x + 2$$

$$y = -\frac{2}{3}x - 6$$

$$y = -x - 10$$

$$y = -x - 13$$

$$y = x + 3$$

$$y = x + 13$$

$$y = \frac{3}{4}x + 8$$

$$y = x - 4$$

$$y = \frac{11}{10}x - 11$$

$$y = -x + 8$$
